RE: Interim Status Acknowledgement
FACILITY NAME: Techalloy Illinois Inc.

USEPA ID No. IL D005178975

Dear Mr. Miller:

This is to acknowledge that the U.S. Environmental Protection Agency (USEPA) has completed processing your Part A Hazardous Waste Permit Application. It is the opinion of this office that the information submitted is complete and that you, as an owner or operator of a hazardous waste management facility, have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for interim status. However, should USEPA obtain information which indicates that your application was incomplete or inaccurate, you may be requested to provide further documentation of your claim for interim status. Our opinion will be reevaluated on the basis of this information.

The State of Illinois has received Phase I interim authorization under Section 3006 of RCRA. Because of this authorization you are required to comply with standards prescribed in 35 Illinois Administrative Code, Subtitle G, Chapter I, Subchapter c, Part 725, in lieu of the standards in 40 CFR 265. In addition, you are reminded that operating under interim status does not relieve you of the need to comply with other applicable Federal, State and local requirements.

The printout enclosed with this letter identifies the limit(s) of the process design capacities your facility may use during the interim status period. This information was obtained from the Part A permit application that was sent to USEPA. If you wish to handle new wastes, to change processes, to increase the design capacity of existing processes, or to change ownership or operational control of the facility, you may do so only as provided in 40 CFR 122.23 and as State regulations allow.

As stated in the first paragraph of this letter, you have met the requirements of 40 CFR 122.23; your facility may operate under interim status until such time as an RCRA permit is issued or denied. This will be preceded by a request from this office or the Illinois Environmental Protection Agency for Part B of your application. Please contact Arthur Kawatachi of my staff at (312) 886-7449, if you have any questions concerning this letter or the enclosure.

If you have questions concerning the Illinois hazardous waste regulations, please contact Mr. Robert Kuykendall at the Illinois EPA, 2200 Churchill Road, Springfield, Illinois 62706. His phone number is (217) 782-6760.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief
Waste Management Branch
